

Telex aviation headsets are crafted for pilots who share our passion for sound. Your headset is your connection to the world; sound quality is critical to both your safety and the enjoyment of flying.

Telex understands this and has engineered a helicopter headset designed to deliver the best sound for clear, reliable communication in the air.

**Heli-XT Specifications**

Noise Reduction	30 dB
Microphone	Noise Canceling Electret
Comfort Feature	ComfortCam™
Power Management	Smart auto shut off Built-in battery recharger Panel power cord
Cell Phone/MP3 Adapter	Dual-action
Power	2AA batteries (alkaline or rechargeable) Panel power adapter cord
Warranty	5 years
Weight	18.5 oz (524 grams)
Part Number	PRD000220000

**Stratus**  
Heli-XT

# Your headset is your connection to the world.

**Finally, helicopter pilots have a choice:  
the Telex Heli-XT**

## **Superior Noise Protection**

Telex pioneered Active Noise Reduction (ANR) technology in aviation headsets and now we've taken hearing protection a step further with noise reduction technology for the helicopter pilot. The Heli-XT cancels harmful, low-frequency noises common in helicopters that other headsets can't block.

## **Comfort**

Telex's patented ComfortCam™ system allows you to adjust your headset for a custom fit. It alleviates clamping, no matter how long you wear the headset.

## **FlexPower™**

Telex's unique advanced power management system gives pilots the option to power the headset via the helicopter panel, standard alkaline batteries, or rechargeable batteries. Provides 50 hours of battery life.

## **Reliability**

Telex is the market leader in aviation headsets. We're the headset of choice for more than 70 percent of commercial pilots, who depend on us to provide clear, reliable communications. We now bring that leadership and expertise to the helicopter pilot.

**ComfortCam™**  
technology offers  
quick and easy  
tension control for  
clamp-free flying.

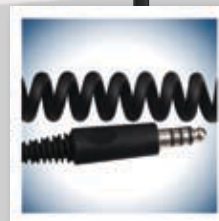

**Ear cups**  
include foam seals  
and two-directional  
pivoting to conform  
to the shape of the  
head — even around  
eyewear — and  
evenly distribute  
weight, minimizing  
hot spots and  
pressure on the ears.

**Individual volume**  
controls for each  
earcup accommodate  
individual preferences.

**FlexPower™**  
advanced power  
management system  
with cell phone  
connector and stereo  
music interface jack.  
Includes built-in  
recharging system.

**Coiled cord**  
and TP-120, U-174/U  
equivalent plug.
