IN REPLY  
REFER TO: CE-212

Mr. Dean W. Flygstad  
Director of Engineering  
Telex/Acoustic Products  
3054 Excelsior Boulevard  
Minneapolis, Minnesota 55416

Dear Mr. Flygstad:

Your February 12, statement of conformance with TSO-C58 and Regulations of the Administrator, Part 514, are accepted for approval of your TEL-66T Hand-Held Dynamic Transistorized Microphone.

Accordingly, you are authorized to identify this equipment with the applicable TSO-C58 marking.

Regulations of the Administrator, Part 514, has been superseded, substantive change to Federal Aviation Regulation (FAR) 37, effective February 1, 1965. We suggest you obtain a copy of this regulation from Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402, at a cost of 20¢. Future statements of conformance should refer to FAR 37.

Your "Telex Quality Control Manual" with latest Revision No. 2 dated November 15, 1962, is considered satisfactory for production of this equipment at Minneapolis.

Your request for deviation for approval of the Model TEL-66C Carbon Hand-Held Microphone will be evaluated as soon as possible.

Sincerely yours,

John A. Carran, Chief  
Engineering & Manufacturing Branch  
Flight Standards Division
