

Infrastructure Solutions

WHY CHOOSE TELEX?

Critical environments require dependable solutions. Our products can be relied upon to ensure seamless operations and worker safety.

Telex has been delivering radio dispatch solutions in the infrastructure market for many years. Whether you are a large multi-state utility, an oil and gas operation, or a major waterway, our dispatch products can be tailored to meet your unique needs.

The Telex radio dispatch solution allow users to integrate multiple radio technologies, such as P25, DMR, TETRA, NXDN, and conventional in order to provide communications between groups responsible for making sure your operations run smoothly.

Utility companies often work across a wide geographic area, and often with multiple radio technologies. Worker safety is paramount not just for day-to-day operations, but even more so during a weather event when there are even more hazards. Through the use of GPS radio data, crews can be tracked by personnel in the operations center. If a worker encounters an emergency, such as being arc flashed, an emergency button on their radio can be pressed to alert the dispatcher to the worker's situation. They can then coordinate the response of other company personnel and emergency services to that worker's location. Because the whole system works over IP, the operations center can be in the same city or several states away.

The oil and gas industry has to coordinate a lot of moving pieces. From operations on drilling platforms to land based operations, to transportation of workers and material to and from sites, our solutions can be deployed to link all these vital elements together. Like the utility industry, the oil and gas industry is deeply concerned with both worker and environmental safety. Our dispatch systems can help coordinate rescue and cleanup efforts between multiple agencies using multiple radio technologies.

Traveling through large waterways such as the St. Lawrence Seaway and the Panama Canal is a complex business. Our dispatch solutions are counted on by both to coordinate operations and security in order to make sure things happen as smoothly and quickly as possible.

WORKS FOR **YOU.**

TELEX

Radio Dispatch

Because Telex Radio Dispatch is a Bosch brand, we offer a full spectrum of solutions that can be integrated together to meet your unique needs, whether it's for **dispatch, public address, conferencing, CCTV, fire, or security** – to name a few!
