

HR-2L

Medium-Weight, Dual-Sided, Listen-Only Headphone with Pigtail Termination

The Telex HR-2L is a medium-weight, noise reduction headphone. It has a noise reduction rating of 21dB, and is suitable for use in moderately noisy environments. The HR-2L features our unique, soft moleskin covered headband for all day comfort. Our ergonomic headset design distributes ear cushion pressure evenly over the entire ear with no pressure points, unlike conventional headsets, which apply more pressure on the bottom of the ear than the top. An added advantage of this design is that the headset folds into an extremely compact shape for ease of transport and storage.
